

3D Mouldings

1. IN STOCK NOW!
2. Installation time is 90% less than square 3D wall panels.
3. Less than 10% waste factors.
4. Square 3D panels are hard to handle and extremely time consuming to blend all four edges. Our contemporary mouldings are designed for quick installation with minimal blending required.
5. Less expensive to ship than comparable square wall panels.
6. Applied directly to any solid surface including drywall, using all standard woodworking tools and adhesives.
7. Can be installed on flat or curved surfaces at no extra cost!
8. Will accept all standard paints or stains for easy finishing.
9. Lighter weight and uniform consistency.
10. 3D mouldings allow unlimited options for pattern designs.
